Summary

SAP **Basis Consultant** with 2 years of experience in System refresh, trouble shooting, background job management, trace analysis, and **implementing SNotes**. Experienced in web service configuration, performance optimization, SAP GRC, Ticketing systems, system upgrades, transport management, ensuring system stability and availability.

Technical Skills

- **SAP Systems & Administration:** SAP ECC, SAP S/4HANA, SAP NetWeaver, SAP Solution Manager, SAP BW, SAP GRC, User Creation and roles
- **SAP BASIS tasks:** System refresh, Dump Analysis, System monitoring, S-Note implementation, Web service configuration, PAM password rotation
- **Performance Monitoring & Optimization:** SAP EarlyWatch, ST03N, SM50, SM21 logs, ST22 dumps, SM66.
- **System Upgrades, Security & Transport Management:** SAP TMS, CTS, CHARM, Kernel patches.

Work Experience

Accenture

Client: CIO USA

Packaged App Development Associate

Mumbai

Project: **NON-RISE SAP BASIS**

June 2023 – Present

- Orchestrated scheduled SAP system refreshes, encompassing comprehensive pre- and post- steps, which resulted in a 99.9% system uptime and zero data loss for over 5,000 users.
- Administered post-system copy tasks on target systems, including SGEN execution and resolution of RFC issues (ADS, JCo, ALEREMOTE), generating and applying License(Nee License) which accelerated system readiness by 15% post-refresh and directed developer experience.
- Streamlined SAP landscape change management by configuring ChaRM workflows, resulting in a 20% reduction in change request processing time and improved adherence to audit requirements, showing strong technical expertise.
- Configured and Maintained Web Services including SAP Licenses, SSL certificate renewal and URL whitelisting for secure integrations.
- Expedited client issue resolution, as the most junior member on the team, by establishing secure OSS connections via Service Marketplace while adhering to strict SLAs.
- Conducted System Health Checks during DR drills and Daylight-Saving transitions for the environments based on HANA Database.
- Diagnosed and rectified system performance bottlenecks across three geographical regions, decreasing post activity incidents by 15% and increasing overall system stability within the SAP environment.
- Worked on Incident and Change Management, Coordinated with cross-functional teams using ServiceNow to resolve post-activity issues, maintaining detailed audit trails, and ensuring zero data loss during critical system maintenance and upgrades.
- Standardized documentation of SAP Basis operational procedures, resulting in a 20% faster onboarding time for new team members and a demonstrably mastered level of first-time fix success for critical incidents.
- Performed Daily Operational Support Tasks: file system monitoring, dump analysis, system trace/log reviews, transport issues, and SAP parameter tuning. Provided support for client opening requests, aligning with business needs ensuring timely setup.
- Supervised the end-to-end activation of OData and SICF services for essential Fiori applications.
- Fortified Java Portal security by configuring SSO, LDAP, SPNEGO, trusted systems, and certificate exchanges, eliminating 100% of unauthorized access vulnerabilities, as determined by penetration testing.
- Optimized start/stop processes for ABAP+JAVA systems and databases during maintenance windows, identifying findings to fix the three biggest causes of delays, and ensuring seamless system restarts.

Education

- Bachelor of Technology in Electronics and communication
Malla Reddy Engineering College for Women
July 2019 – March 2023
- Board of Intermediate education
Sri Sandeepani junior college
August 2017 – April 2019

Certifications

- SAP Certified Associate - SAP S/4HANA System Administration
Certification link

Extra-curricular

- Travelling, Volunteering, Arts/Sports Club
